

Scales family CAT 27

ELZAB CAT 27 scales family is the new generation of ELZAB manufactured scales offering quite new possibilities for retail outlets. The CAT 27 scales are dedicated to work with the POS system consisting of a cash register or computer and one or more scales connected in the scales system. Significant software flexibility and a wide range of solutions make them applicable in small, medium and large retail outlets.

SCALES FEATURES:

- weighing the goods
- weighing and subtracting the tare
- automatic switching off the tare after having weighted the goods
- automatic zero tracking (maintaining zero while unloaded)
- inputting the unit price through the communication interface and calculation of the to-pay value of weighted goods
- inputting the name of weighted products thru the communication interface
- 3-button keyboard
- graphical monochrome display showing the weight, unit price, the total commodity price, the commodity name, messages for the user as well as ZERO, STABILITY, NET and FIXED TARA indicators
- ability to connect two displays: the main and additional
- communication with external devices (cash register, computer) through the RS232 port
- transfer of the weighing results initiated manually, automatically or by the interface
- ability to work in the ELZAB SCALES SYSTEM
- energy saving mode

THE ELZAB CAT 27 SCALES FAMILY CONSIST OF FOUR TYPES OF SCALES NAMED:

Pluton 2 - the stand-alone scales with built-in display and the ability to connect an additional remote display on a rotating column with adjustable height.

Vega 2 - design of the platter makes the scale applicable as a stand-alone or mounted in the countertop of the cash register spot. The scale is equipped with a remote display installed on a rotating column of adjustable height.

Saturn 2 - the scales is intended for mounting in the countertop of the cash register spot and can be installed in a common chassis with an horizontal in-counter barcode scanner. The scale is equipped with remote display installed on a rotating column with adjustable height.

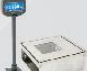

Neptun 2 - the scales is designed for installation in the advanced barcode scanners. It is offered in the form of ready to built weighing module with a remote display, as well as a part of a set containing the most popular bi-optic scanners.

	Method of installation	Maximum load	Elementary and legalization scale intervals (e=d)	Display	Plate dimensions	Interfaces
 ELZAB Pluton 2	standalone	15 kg	2 g (zakres 0-6 kg) 5 g (zakres 6-15 kg)	1 x LCD graphic (optional: additional external display)	319 x 254 mm	RS 232
 ELZAB Vega 2	standalone or counter	15 kg	2 g (zakres 0-6 kg) 5 g (zakres 6-15 kg)	1 x LCD graphic (optional: additional external display)	244 x 306 mm	RS 232
 ELZAB Saturn 2	counter	15 kg	2 g (zakres 0-6 kg) 5 g (zakres 6-15 kg)	1 x LCD graphic (optional: additional external display)	292 x 292 mm	RS 232
 ELZAB Neptun 2	counter	15 kg	2 g (zakres 0-6 kg) 5 g (zakres 6-15 kg)	1 x LCD graphic (optional: additional external display)	Depend on the scanner model used	RS 232

SCALES-SCANNER ELZAB CAT 27

Scales-scanner Saturn 2 - the scales is intended for mounting the regular cashier desk or box. It is equipped with a basket for installation. Inside its casing can be placed any horizontal barcode scanner. The scales is equipped with remote display installed on a rotating column with adjustable height and swivel angel.

Scales-scanner Neptun 2 - the scales is designed for installation in the advanced bi-optical barcode scanners mounted in the cashier box. It is offered in the form of ready to build weighing module with a remote display as well as the scales only for the most popular bi-optical scanners. Basket for installation is offered as the option.

	Method of installation	Maximum load	Elementary and legalization scale intervals (e=d)	Display	Interfaces	Scanner	Scanner parameters
 Saturn 2H	counter	15 kg	2 g (zakres 0-6 kg) 5 g (zakres 6-15 kg)	1 x LCD graphic (optional: additional external display)	RS 232	MS7625 Horizon	<ul style="list-style-type: none"> horizontal laser 2000 scans / second 20 scan lines
 Saturn 2M	counter	15 kg	2 g (zakres 0-6 kg) 5 g (zakres 6-15 kg)	1 x LCD graphic (optional: additional external display)	RS 232	Magellan 2300 HS	<ul style="list-style-type: none"> horizontal laser 1800 scans / second 18 scan lines
 Saturn 2Z	counter	15 kg	2 g (zakres 0-6 kg) 5 g (zakres 6-15 kg)	1 x LCD graphic (optional: additional external display)	RS 232	Zebex Z-6182	<ul style="list-style-type: none"> horizontal laser 3600 scans / second 40 scan lines
 Neptun 2 MGL 8300	counter	15 kg	2 g (zakres 0-6 kg) 5 g (zakres 6-15 kg)	1 x LCD graphic (optional: additional external display)	RS 232	Magellan 8300	<ul style="list-style-type: none"> bi-optic laser 3900 scans / second 52 scan lines hardened or sapphire glass
 Neptun 2 MGL 8400	counter	15 kg	2 g (zakres 0-6 kg) 5 g (zakres 6-15 kg)	1 x LCD graphic (optional: additional external display)	RS 232	Magellan 8400	<ul style="list-style-type: none"> bi-optic laser 5200 scans / second 52 scan lines hardened or sapphire glass
